

## BLACK SPLITTER / S2X 800

The Black Splitter S2 800 is designed to fit all models of excavators up to 31,000+/-lb. The unique rotating threaded cone provides extremely efficient wood-splitting power for various timber types including hard, soft, straight, twisted, stumps and roots. The two piece chromium-steel cone with replaceable tip has a double helical thread design with a thread pitch of 24 mm for rapid penetration into the hardest of timber. The cone can also be used to maneuver and position individual logs before and after splitting.

Weight:	334-354 lb
Excavators:	5-14 MT
Cone:	chromium-steel; 245 mm diameter; double helical thread; 24 mm thread pitch; 2 pieces
Hydraulic Motor:	optional with max. torque 1724 ft-lb 1825 ft-lb, 2965 ft-lb
Motor Shaft:	90 to 100 mm diameter bearing-mounted and sealed

- designed to fit all models of excavators up to 31,000+/- lb
- unique rotating threaded cone providing extremely efficient log splitting power of large logs and stumps
- made for various timber types including hard, soft, straight, twisted, stumps and roots
- two piece chromium-steel cone with replaceable tip
- double helical thread design with a thread pitch of 24 mm for rapid penetration into the hardest of logs and timber
